'Aluminum Music Presents Z'EV+Bush Tetras+Peter Gordon & Love of Life Orchestra+George Lewis'

By Aidan Levy

For this downtown nexus's 40th anniversary, the curators stage a shameless exercise in avant-garde excess and truly test how many cooks can fit in the Kitchen. Spoiling the broth are sonic master chef Z'EV, who finds the stainless steel piÃce de rÃ©sistance of post-industrial decline in a PVC pipe or a discarded hubcap, No Wave epicureans the Bush Tetras, Peter Gordon and the slow-cooking electro-synth smorgasbord Love of Life Orchestra, and former venue curator George Lewis.
