BYTE ME

Lady's Glove

Michael Jackson could learn a new trick from musician Laetitia Sonami. Her sensor-filled lady's gloves (a.k.a. "cybergloves," which make everything *really* clear) play text and sound samples—collected from her home city of San Francisco—with every hand and finger movement. *Wed 15, Thu 16; 8pm. \$12. The Kitchen, 512 W 19th St between Tenth and Eleventh Aves. For more info, call 255-5793.*
