EDITED BY REBECCA MILZOFF

"RAINFOREST IV"

David Tudor's landmark electro-acoustic work gets a performance; in the piece, composers design and construct a set of sculptures that function as instrumental loudspeakers under their control, independently producing sound material to display the sculpture's resonant characteristics. The audience is encouraged to wander around and interact with the work over its five-hour running

time. 9/22 and 9/23 at 4. *The Kitchen*, 512 W. 19th St., nr. Tenth Ave. (212-255-5793, ext. 11); \$10.
